

The Mission

It is the Mission of the NRT to educate about significant natural and cultural resources and to acquire and preserve land of special character for the benefit of the public, within and beyond Easton's boundaries. The NRT promotes a land ethic in the community through educational programming. The NRT provides leadership, cooperation, and networking to others with a similar mission.

The NRT was founded with these goals in mind and has been providing educational opportunities to children and adults for over 40 years. The habitats at Sheep Pasture act as a great backdrop and focal point for many of the programs. The property has 154 acres of beautiful fields, woods, ponds, brooks and farm pastures. Our experienced staff also utilize two indoor classrooms. Farm animals, educational animals, specimens, biofacts and artifacts add to the overall experience of the students.

We look forward to serving you in the future.

All of our educational programs are adaptable. Our teacher / naturalists are happy to design a lesson specifically suited to meet the needs of your group. Call today for more information.

For more information

or to schedule a program please contact the NRT Education Department.
