### Additional Programs

NRT Naturalists will work with Girl Scouts individually or as a troop to help design and implement service projects. Contact us today to get started.

## Scout Programs at Sheep Pasture

NRT's staff of naturalists conducts scouting programs year round. Each program is designed and specialized for the needs and requirements of every individual scout troop. Programs and activities also vary based on time and weather conditions.

Most programs will include a topic discussion surrounding the badge requirements, a group activity, and an exploration hike through the beautiful land of Sheep Pasture.

Each program runs for approximately one hour, with extended programs available.

Contact us today for scheduling or extended program pricing!

### Program Costs

All one-hour scouting programs cost \$5.00 per child, with a group minimum of \$50.00

Programs are designed to accommodate groups of 10 scouts or more.
